When Galileo was a boy in Italy in 1574, he studied science. As he grew older, Galileo became interested in studying the stars. At that time, most people believed the sun moved around Earth. Galileo said that Earth moved around the sun.

Galileo got his idea after he read a book and learned more about stars. Galileo studied Jupiter with a telescope. It helped Galileo find some of Jupiter's many moons. He saw that the moons moved around Jupiter. Now he knew that some things in the solar system did not move around Earth!

Galileo wanted to tell everyone about his idea, but he had a problem. Some people in Italy did not like the idea that Earth was not the center of the world. They wanted to kill him if he did not say that his ideas were wrong. Galileo agreed, and **instead of** being killed, he spent the rest of his life in prison. However, Galileo was right! Today we know that the planets move around the sun.

❖ True / False

51) Galileo wasn't born in 1574. a) True b) False

52) Galileo was killed for his beliefs. a) True b) False

❖ Choose the best answer
